TERMITES! ARE YOU AT RISK?

FLYING TERMITE

Termites and common ants are often mistaken. This identification sheet will allow you to see the differences between the two.

DID YOU KNOW that termites are also known as white ants? They thrive in humid bushland climates which Sydney is known for.

FLYING ANT

DID YOU KNOW that 1 in 5 homes are attacked by termites in its lifetime? Australian Standards 3660.2 recommends that homes should be inspected at least once every 12 months.

DID YOU KNOW that termites cause over \$780 million in damages per annum in Australia? None of this is covered by home insurance.

Swarming termites are known as **Alates**. If you see them coming out of your home **you should ring our office ASAP!**

ALATE

When choosing a pest control operator to protect your home against termites you must make sure that they are fully trained, insured and licensed. You can trust that Knock-Out's technicians are all of the above.

TERMITE NEST IN WALL

SOLDIER TERMITE
